## The web site of Migraine Aura Foundation

The section Migraine Art, edited by Klaus Podoll MD, is a unique presentation of artistic works as a medium to express and communicate those experiences which occur as signs and symptoms of migraine, a condition that affects 5-10 % of the population. Classifying and understanding the migraine aura not only helps the patients but might provide one avenue for discovering human brain functioning in cognitive and psychological processes. The se-

ction Pathomechanisms, edited by Markus Dahlem PhD, is devoted to the study of pathophysiological mechanisms of migraine aura using various methods ranging from non-invasive neuroimaging to simulations with neural networks. Migraine art Foundation is a non-profit organization. One of its most important goals is to provide material that helps patients to recognize and understand their neurological symptoms during migraine. The information on

this site is designed to support, not replace, the relationship that exists between a patient and his/her physician. We do not provide or comment on help in migraine treatment, in particular medication or other forms of migraine pain relief.

3rd Mediterranean Summer School	3
What'on...	4

## Back from Castrocaro....

The European Headache School, held in Castrocaro (4-7 October 2006) has obtained, the first time for an headache course, an official accreditation from European Committee for the Continuous Medical Education/CME). The course received 18 credits. The use of the EHF course standards provided a successful meeting from the level of science, quality of the presentations and the general interactions between participants.

# The European Headache Summer School

## Participants

Medical doctors and other academic therapists or researchers with interest in headache wishing to improve:

- Their skills in the diagnosis and treatment of headache
- The management of headache in their geographical region
- Participation in and initiate headache research
- Multidisciplinary treatment strategies

## General information

Venue: Danish Headache Center  
Department of Neurology  
Glostrup Hospital  
University of Copenhagen  
Denmark

## Registration

European Headache Federation

presents

## The European Headache Summer School May 2007

Final programme

Organized by  
*The Danish and German Headache Societies and The Danish Headache Center*

10.<sup>th</sup>- 12.<sup>th</sup> May 2007  
The Danish Headache Center  
Glostrup Hospital  
Copenhagen

Danish  
Headache  
Society

DEUTSCHE  
MIGRÄNE- UND  
KOPFSCHMERZ-  
GESELLSCHAFT

### DAY 1: May 10th 2007

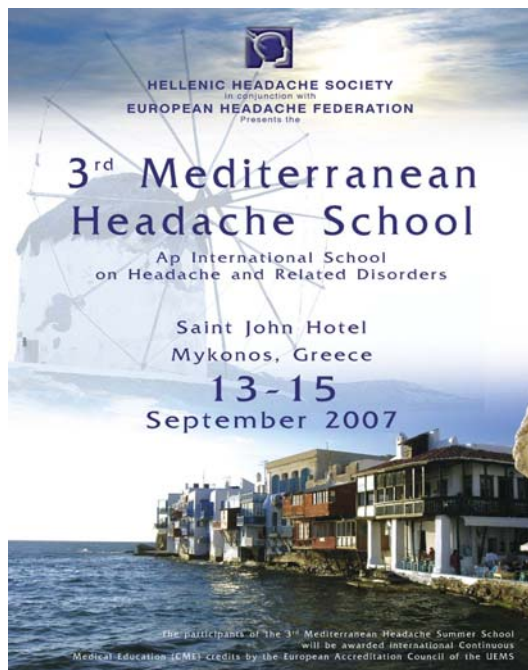

Session 1: Clinical presentation and diagnosis of headache  
Clinical presentation and diagnosis of headache  
Taking a good headache history – interactive group sessions  
The role of diagnostic procedures  
Session 2: Headache pathophysiology and presentation of experimental models  
Pathophysiology of migraine  
Experimental models of headache  
Demonstrations of experimental models (in groups)

### DAY 2: May 11th 2007

Session 3: primary headaches  
Migraine  
Tension-type headache  
TAC  
Other primary headaches  
Session 4: multidisciplinary approach  
Presentation of a Multidisciplinary Headache Center  
Demonstrations of treatment strategies (in groups)

### DAY 3: May 11th 2007

Session 5: secondary headaches and neuralgias  
Medication overuse headache  
Other Secondary headaches with case histories  
Neuralgias  
Treatment of the complex headache patient

## Information:

E-MAIL: [one2one@ath.forthnet.gr](mailto:one2one@ath.forthnet.gr)website: [www.onetoone-congress.gr](http://www.onetoone-congress.gr)**DAY 1: September 13, 2007 (Thursday)**

## Section 1: Introduction

Classification of Headache: why is it so important?

Epidemiology of headache

The burden of headache

Path physiology of headache

## Section 2: Migraine

Classification and clinical picture of migraine

Co morbidities of migraine

Acute drug treatment

Prophylactic drug treatment

Small group work 1: Migraine

Complications of migraine

Attacking the migraine attack

Preventing migraine

Case report discussion (video)

**DAY 2: September 14, 2007 (Friday)**

## Section 3: Tension-type headache (TTH)

Epidemiology of TTH

Co morbidities of TTH

Classification and clinical picture of TTH

Special Lecture 1: Pathogenesis of TTH

## Section 4: TTH and other headaches

Pharmacological treatment of TTH

Non-pharmacological treatment of TTH

 HELLENIC HEADACHE SOCIETY  
 3RD MEDITERRANEAN SUMMER SCHOOL  
 MYKONOS, GREECE, 13-15 SEPTEMBER 2007

## WELCOME

On behalf of the Hellenic Headache Society I have pleasure in extending to you a cordial invitation to participate in the 3rd Mediterranean Summer School which this year going to be held in the fascinating island of Mykonos on the above dates.

This year the summer school is being organized in conjunction with the European Headache Federation and accordingly it has been designed so as to cover a comprehensive spectrum of the issues connected with Headache

The meeting will be attended by prominent scientists from all over the world who have already accepted an invitation to participate as speakers and/or supervisors of work shops

The program which is extending over a period of three days will be divided in two Sessions.

The morning Sessions will comprise all the significant announcements relating to the developments in the main areas of the field while the afternoon Sessions will consist of work shops of small number of participants each discussing the morning presentations.

Our aim is to enlarge on all important and up to date findings and give the opportunity to medical doctors and specialist in the field to extend their knowledge and meet and exchange views and experiences with colleagues sharing the same interests It is our firm belief that you will greatly benefit from participating in this important scientific event while in parallel enjoying the climate and hospitality of the famous island of Mykonos.

Will be extremely happy to welcome you there

Medication-overuse headache (MOH)

Rare headache situations

Small group work 2: Varia

Which examinations in headache?

Management of TTH

MOH: Treatment strategies

Case report discussion (video)

**DAY 3: September 15, 2007 (Saturday)**

## Section 5: Trigeminal autonomic Cephalalgias (TACs)

Epidemiology of cluster headache

Classification of TACs

Clinical Picture of cluster headache

Special Lecture 3: Pathogenesis of TACs

## Section 5: TACs and other headaches

Treatment of cluster headache

Paroxysmal hemicrania and SUNCT

Headache in children

Headache in the elderly – Hypnic headache

Small group work 3: Varia

Differential diagnosis of TACs

Treatment of TACs

Headache in children – Headache in the elderly

Case report discussion

## European Headache Federation Executive

### PRESIDENT

- H. Diener (Germany)

### 1st VICE-PRESIDENT

- F. Antonaci (Italy)

### 2nd VICE-PRESIDENT

- D. Valade (France)

### GENERAL SECRETARY

- E. Couturier (The Netherlands)

### TREASURER

- R. Jensen (Denmark)

### MEMBERS AT LARGE

- M. Lainez (Spain)
- I. Milanov (Bulgaria)
- D. Mitsikostas (Greece)
- M. Wysocka-Bakowska (Poland)

European Headache Federation is incorporated in England and Wales as a company limited by guarantee; registered charity no. 1084181

**The Journal of Headache and Pain**

**Official Journal of the European Headache Federation**

Specifically dedicated to researchers involved in all aspects of headache and pain, including theory, methodology, clinical practice and care.

A multidisciplinary perspective covering headache and pain syndromes in the following fields:

- Genetics
- Neurology
- Internal medicine
- Clinical pharmacology
- Child neurology/psychiatry
- Alcoholology
- Biomechanics
- Otolaryngology
- Dentistry
- Neuroimmunology
- Neurosurgery
- Psychology
- Pain management
